Web-Based Resources

**POGOe.** The Portal of Geriatrics Online Education (POGOe) is a comprehensive digital repository of expert-contributed geriatrics educational materials for educators, clinicians and students. The web site for POGOe is [http://www.pogoe.org/](http://www.pogoe.org/). In order to view the extensive resources you will need to register as a member of this site and login each time. It is highly recommended that you sign-up for the monthly E-newsletter.

**Consult GeriRN.org,** a digital repository of geriatric nursing resources for care of older adults that can be accessed at [http://consultgerirn.org/](http://consultgerirn.org/). Home to the *Try this Series*, new resources that may be of interest is the new on-line case series, *Primary Care of Older Adults* E-learning modules. There are 11 cases available for practitioners who work with older adults to complete. Continuing education is available. Also housed on the Consult GeriRN.org site is APRN Faculty Resource Center: Education to Improve the Care for Older Adults. This is a very valuable digital toolkit for faculty preparing advanced practices nurses who will work with older adults. Links to sample curriculum, teaching strategies, and archived webinars are available.

**Clinical Toolbox for Geriatric Care.** The Clinical Toolbox for Geriatric Care was developed by the Society of Hospital Medicine Geriatric Task Force. The website which can be accessed at [http://www.hospitalmedicine.org/geriresource/toolbox/howto.htm](http://www.hospitalmedicine.org/geriresource/toolbox/howto.htm) contains resources for clinicians to use to facilitate and enhance inpatient care of the older adult. You can find practice guidelines, fact sheets for hospitalization and discharge guidelines to use in practice.

**The Nursing Home Toolkit.** Promoting Positive Behavioral Health: A Non-pharmacologic Toolkit for Senior Living Communities which can be accessed at [http://www.nursinghometoolkit.com/](http://www.nursinghometoolkit.com/) is a compendium of resources for staff in senior living
communities to promote nonpharmacologic behavioral health strategies to address behavioral and psychological symptoms of dementia.
